

ELEAZAR MICO B. VILLAMOR

CIVIL ENGINEER | SITE ENGINEER APPLICANT

Quezon City, Metro Manila | 09103122262 | ce.micovillamor@gmail.com

Portfolio: <https://mic-modeler.github.io/>

PROFESSIONAL SUMMARY

Detail-oriented Civil Engineering graduate with hands-on site internship experience and comprehensive technical certifications in Autodesk Revit Structure, AutoCAD 2D/3D, and Construction Estimation. Combines practical field exposure in site inspection and blueprint verification with 5+ years of operational leadership, quality control, and data optimization. Adept at interpreting engineering plans, preparing accurate digital quantity take-offs, coordinating sub-contractor activities, and enforcing strict QA/QC standards. Seeking a Site Engineer position to apply technical software competencies and field execution capabilities toward successful project delivery.

CORE TECHNICAL COMPETENCIES & CERTIFICATIONS

- **Software & CAD/BIM Tools:** Autodesk Revit Structure (BIM Modeling), AutoCAD (2D/3D Drafting, Rendering, Plotting)
- **Quantity Estimation & Takeoffs:** Manual & CAD-Based Building Estimates, PlanSwift, Bluebeam, Material Costing
- **Site Engineering & QA/QC:** Site Inspection, Structural Plan Verification, QA/QC Auditing, Workflow Optimization, Daily Logs
- **Data Analytics & Tools:** Microsoft Excel (Advanced Formulas, Pivot Tables), Power BI, Python Fundamentals, Google Workspace

PROFESSIONAL & FIELD EXPERIENCE

DATA OPERATIONS LEAD | Hapinoy *(June 2022 – Present)*

- Lead overall operational workflows, team allocations, and system reporting to maintain 100% data integrity and project accuracy.
- Develop and implement structured quality assurance (QA/QC) checklists, significantly reducing operational errors and improving cycle times.
- Utilize advanced Excel, Google Workspace, and data analytics tools to track daily key performance indicators and operational metrics.
- Supervise operational teams, enforcing strict compliance with quality standards, deadlines, and project deliverables.

SITE ENGINEER INTERN | Zonpath Builders Corp. *(May 2019 – July 2019)*

- Assisted senior site engineers in daily field supervision, structural layout verification, and quality inspections for ongoing building works.
- Reviewed construction blueprints and structural drawings against actual site execution to ensure compliance with engineering specifications.
- Prepared daily construction progress logs, material inventory tracking, and site inspection reports.
- Coordinated with sub-contractors and site personnel to maintain safety standards and field workflow efficiency.

TRANSCRIBER & QUALITY CHECKER | RLR Research & Analysis *(September 2019 – December 2021)*

- Executed high-volume quality control checks and audit verifications on research data to ensure full compliance with client specifications.
- Recognized as 'Most Reliable CATI-VOC' for exceptional accuracy, meticulous attention to detail, and low defect rates.

ENGINEERING TRAININGS & CONTINUING EDUCATION

- **Autodesk Revit Structure Comprehensive Training (BIM-Based Modeling)** — XSTRUCTURES | Nov 2025
- **Manual Construction Building Estimates with Excel and AutoCAD** — MSTCONNECT | Nov 2025
- **Autodesk Revit Structure Fundamentals** — XSTRUCTURES AUTODESK ATC | Nov 2025
- **Exploring Bluebeam and PlanSwift: Side-by-Side Quantity Takeoff** — XSTRUCTURES | Aug 2025
- **AutoCAD 2019 with Fusion (2D, 3D, Rendering, Plotting - 75 Hours)** — MICROCADD | May 2019
- **Data Science and Analytics with Power BI Workshop** — MSTCONNECT | Feb 2026
- **Python Programming for Beginners** — MSTCONNECT | Jan 2026

EDUCATION & ELIGIBILITY

- **Bachelor of Science in Civil Engineering** — The University of Manila (2015 – 2020)
- **Career Service Examination – Professional Level** — Rating: 80.02 | Civil Service Commission (March 2026)

LEADERSHIP & PROFESSIONAL DEVELOPMENT

- **FAST LEAD with CSC NCR: Work That Matters** – Excellence Beyond the Job Description (July 2026)
- **FAST LEAD with CSC NCR: Integrity in Action** (June 2026)
